State interest or reason for wanting to serve Last Year I had a massive heart attack and I am lucky to be alive today because of people who serve the community and who took good care of me and mostly on time, so since my whole life was all about prevention of the environment, and my commitment on switching to green everything that I can I figure out that this is my way to give back and an opportunity to serve my community, I am very technical guy, detail orientated and love to use my hands
