

As part of the process of establishing an ordinance to address development proposals involving oil sands/tar sands products, the City Council is creating a Draft Ordinance Committee consisting of three members to conduct this work.

An application was developed and posted on the City's website for interested persons to apply to be a member of this committee. The City Clerk received 12 applications and mailed copies of these to the Council on January 9th.

On Monday, the Council will hold a discussion on process and guidance for the committee. The Mayor may recommend that each Councilor receive a tally sheet at the January 22nd Council meeting and rank the applicants from 1 to 12 based on criteria developed from their discussion. Then the City Clerk will put the results into a grid and total them to determine the three lowest scores (which would be the highest ratings based on a one, two or three ranking rate). At this time it is anticipated that three individuals will be appointed to the committee at the January 22nd meeting.
