Project highlights:

At the time of this writing, the location of records for Brown's Hill Cemetery are unknown. In an effort to recreate records of the burials there, Sharon E. Smith Ward, Brown's Hill Cemetery Caretaker for First United Methodist Church and her daughter Heather C. Ward cataloged every readable stone in the cemetery, the summer of 1999. There were many stones in need of repair and gaps in the data are the result of many stones being unreadable due to weathering.

Sharon's original list of burials and indexing were based on a hand drawn map of the cemetery and burials were indexed based on a row and stone number system she devised and indicated on her map.

Craig H. Skelton who computerized the records for Highland Memorial Cemetery and Bay View Cemetery as well as other small South Portland cemetery projects discovered the existence of a map of Brown's Hill Cemetery drawn by the WPA (Work Progress Administration) with section and lot numbering as well as Registration of War Veterans Graves.

In the spring of 2013 Craig conducted a field review to compare the records assembled by Sharon Ward with the WPA map of Browns Hill Cemetery and created a listing of burials based on the WPA map.
