Pratt Institute MS in Urban Placemaking and Management

I would like to play a role in supporting initiatives that promote resiliency - both social and environmental - in South Portland. I recently completed a Master's degree in Urban Placemaking and Management from Pratt Institute and studied both Historic Preservation and Public Art as part of that degree program. I believe that preservation is an important element in urban planning as it promotes the values and concepts of heritage in a community, and helps create a sense of place. In addition, public art can play an integral part in creating valuable public spaces by engaging community members to utilize these spaces more frequently and share this experience with others. I am interested in supporting both of these initiatives in South Portland and am eager to give back to my new city. Thank you!
