

City Council Workshop

Agenda Item #1

February 24, 2014

Air Quality - South Portland

Councilor Blake requested the opportunity for the City Council to discuss air quality in South Portland. I have reached out to DEP Bureau of Air Quality officials for information and representation at the workshop meeting. Maine DEP Bureau of Air Quality staff will be happy to attend and participate in the City Council's discussion on air quality. Andrew Johnson out of the Augusta Office and DEP's senior monitoring person Catherine Demers from DEP's Southern Maine Regional Office in Portland will attend the meeting. Additionally, if their schedules allow, Bureau of Air Quality Bureau Director, Marc Cone; and DEP's Licensing and Compliance Division Director, Jaimee Farrin, may also be able in attendance.

Andrew and Catherine will present air quality findings and take questions from the Council afterwards.

James H. Bailey
City Manager
